

Long Beach Park Board
Meeting Minutes from 2/28/18
Long Beach Town Hall, 6:00pm

- I. Call to Order
- II. Quorum: Kendra Bartlett, Kathryn De La Barre, Jerri Massey. Seven residents were present.
- III. Approved January minutes.
- IV. Tom Dolph asked about which stops are planned for renovation this summer and expressed desire to coordinate with streets dept. work. Beach stops targeted for renovation include: 18, 22, 26, and 30. Board reiterated it'll be addressing the top of the stops, not stairs to the beach. Plans will include benches and garbage bin enclosures at each stop. Streets dept wants to do some work on stops 19 and 26. Would like to address pooling at stop 19. Possible drainage issue at stop 22. Agreed to work together similar to how 23 worked last year: board will develop a rough plan and then review / refine in conjunction with Tom. Ready to start planning 22 and 26. Not ready to start plans for 18 and 30 pending issues with encroachment.
- V. Garden Club Update: Beverly Breash (sp?) said Laura Bolton at Beachside is working on the design and will present a plan at the March meeting which will include the design plan, suggested stages of implementation, and costs. We haven't gotten an invoice yet for the design work – should go to Bill. Mary Carol had concern that the park board and garden club are working on the courtyard without community center involvement; however Jim Nielub has been involved and made the original request. Also expressed concern about how the activities director would work. Nothing is firm since the job wasn't posted yet. Mary would like to be involved – will review job description and manage / coordinate with any new hire.
- VI. Noted that board needs to send email to Nick and Bill to include "no personal items stored on town property" policy in community email notices.
- VII. Kendra indicated signage hasn't been ordered yet but still plan to do so.
- VIII. Next meeting 3/28/18, 6pm, Town Hall
