

Long Beach Street Commission Minutes
Wednesday October 17, 2018 5:30 PM

Members present: Tom Dolph, Brian Hogan, Dan Tannas

AT&T will remove utility poles on Lakeshore Drive between Ardmore Way and Belle Plaine Trail (stop 28 to 29). Street Department opinion is that no bond is required because the work will be done at homeowners' expense.

All three leaf machines are ready to go. Expenses will be similar to past years with contractor Healy; however, leaf pickup and leaf removal will be billed separately, and any machinery repair will be itemized. Street commission will review expenses and any issues at completion.

Salt supply is adequate for the season.

The department will consider partnering with the water department to purchase an on-line program to create GPS-generated maps locating water lines, drains, and utilities.

Meeting adjourned at 6:20 PM.
