

Long Beach Street Department Minutes

5:30 PM 07/17/2019

Members present: Tom Dolph, Brian Hogan, Jane Neulieb, Dan Tannas

Paving proceeds as planned, completion of actual paving is expected this week, followed by final debris sweeping and cleanup. Drains and covers will be raised to level flush with paved surfaces.

Certain streets were rejected for paving because they were not recognized and/or mapped by the state. In future, the Street Department will assess each street and proceed to include those needing work in subsequent projects.

Normal Street department activity will resume now that paving is completed.

Meeting adjourned at 6:30 PM.
